ERY JAZER TORRES RAMOS

Backend Software Engineer | Java · Spring Boot · Microservices

Monterrey, Nuevo León, Mexico | 8261297233 | eryjazer@gmail.com | linkedin.com/in/eryjazer/

TECHNICAL SKILLS

Languages: Java, SQL, JavaScript, TypeScript

Backend: Spring Boot, Spring Data JPA, Hibernate, REST APIs, Microservices

Databases: PostgreSQL, Redis, Sybase, SQL Server, Oracle

Testing & Quality: JUnit, Mockito, SonarQube, Checkmarx

Platforms & Tools: OpenShift, Maven, Git, GitHub Actions, CI/CD, YAML

PROFESSIONAL EXPERIENCE

BANREGIO / HEY BANCO

Monterrey, Nuevo León, Mexico

Backend Developer Jr | Nov 2024 – Aug 2026

Backend Developer Intern | Jan 2024 – Nov 2024

- Developed and maintained 10+ Java 11/Spring Boot microservices, REST APIs, and backend components for internal banking automation, implementing business logic, persistence, validation, exception handling, and scheduled processes using Spring Data JPA.
- Automated Toolbox usage reporting with daily, weekly, and monthly metrics and charts, reducing report generation from approximately 30 minutes to 4 minutes (~87%).
- Created 1 tool and optimized 8+ solutions within Toolbox, an internal platform of ~30 process-automation tools, and refactored an authentication flow after a user-type deprecation across multiple microservices.
- Supported a production High Availability initiative across Hey Banco and Banregio by coordinating standardized configuration adoption across dozens of teams and repositories, validating YAML/OpenShift configurations, and troubleshooting deployment issues.
- Implemented and optimized a proof of concept for an AI-assisted documentation pipeline using Claude, GitHub Actions, and multi-repository workflows, reducing agent execution time from ~15 minutes to ~5–7 minutes.
- Diagnosed issues across microservice and database layers; implemented unit tests with JUnit/Mockito and addressed quality and security findings with SonarQube and Checkmarx.

ONECARD

Front-End Developer Intern | Jan 2022 – Jul 2023 | Mexico

- Developed administrative web functionality and a production transaction-monitoring application consuming REST APIs, building 4 Chart.js visualizations and alerts for consecutive failed transactions, with SQL Server integration.

UNIVERSIDAD DE MONTEMORELOS

Software Developer Intern (Part-Time) | Aug 2019 – Dec 2021 | Montemorelos, Nuevo León

- Contributed to ~3 internal applications and 20+ features using Java, Spring Boot, JPA/Hibernate, JavaScript, and Oracle, supporting systems used by university staff and academic operations.

EDUCATION

Universidad de Montemorelos | B.S. in Computer Systems Engineering | Montemorelos, Nuevo León, Mexico

LANGUAGES

Spanish: Native | **English:** B2 - Upper-Intermediate
